## The Story of Willie Brooks.

#### How He Became a Printers' Devil.

Have you met little Willie Brooks, of Gainsville, Ga., the twelve-year-old boy now in Greenville, Garning lits own living? asks a Greenville, S. C. newsjaper. Well, if you havent, you should. And who is little Willie Brooks? Willie is a an orphan boy, a real orphan, beft without people in this big world.

Several weeks ago he boarded a train in Gainesville, Ga., for Greenville. While on train No. 40, he told his story, to a teacher of Chieora College, and she listoned with interest. When he -big steamer locomotive pulled by the the Union Station, chey both alighted, and Willie was carried to Chieora College, where he wate Dr. S. C. Berd, the preddent of the big school for girls, on the hill over in West Greenville. Dr. Byrd got in communication with Capitain Purdue, of The Salvation Army, who

took Willle to The Army Citadel.
On arising ment morning, Willie brushed his hair real good, and informed Captain Furdue that he was going ont on the streets to look the city over and find in job. But Captain Purdue offered his assistance; and it wasn't long before Willie and Mr. B. H. Peace, a member of the Peace Printing Company, had comete a "devil" in order to learn agreement, Willie deciding to hecome a "devil" in order to learn the printer's trade.

He went to work with a vim, and when Saturday came, he drew his slip proudly, and waltzing down to The Army Citadel, he gave Captain Purdue \$1.25, exclaiming "Here's asmuch as I can spare, i need the other 75 cents to bity me a whirt and get my hair cut. When I get more money, I expect to pay you for your trouble."

money, I expect to pay you for your trouble."

Taking a heart interest in the little urchin, Mr. Peace arranged for a home for the little fellow, and he is being careg for in a good family. The printers around Greenville are interested in the new aspirant in the field of typography, and they wish for him much success in his venture.

For his age, he is bright, and has been to school for a few years. Hecan read well, and can write, and a few years, in the printing business will wonderfully improve his learning and will cultivate his young mind to a great extent.—American Social Gazette.

## Had Proved His Death-Trap.

Some years ago in America, a spiendid cak in a forest in Ohlo was struck with lightning. It was rent open, and in the centre of the trunk was found a skeleton, which fell to pieces in the hunds of those who came to the spot. Beside the skeleton they found a few buttons of a soldier's coat of ancient pattern, and a leather pocket book, which soon told a sad story. The brown, discoloured leaves of the pocket-book were covered with pencil marks. These were read with some difficulty, and were found to have been written by the unhappy man limself. He had been taken prisoner by the Redskin Indians, and had made good his escape, though suffering from a wound, but his savage foes pursued close after blin, and, bring hard pressed, he had climbed up that great oak. He observed that the trunk was so far hollow, and, thinking it was only a few feet deep, dropped into it, that he highly be completely lid. He had-linewere, miscalculated the depth. \*\*\*\*\*\*

#### A Visit to a Slum.

At Bethnal Green we descended, and, following our guide, soon found ourselves, leaving the broad thoroughfares for mean streets with broken ourselves, leaving the broad thoroughlares for invalidations between the property of the prope displaced tenements. We passed through three stuning posts into an alter, where tumble-down houses, two-stories high, faced a blank wall. At the sound of our coming, tousied heads of women in various stages of fifth and undress were thrust out of doors and windows. The Captain, who had lagged behind to pat a mongrel acquaintance, was not yet within view, and the first giances cast upon us were by no means friendly. They seemed to express, aggressively enough, "Wot you want comin' pokin' yer nose dahn our pilce?" When the Captain came in sight the scowls disappeared. Unaccustomed smiles played about brulsed lips and shone in blackened eyes. One or two mechanically lifted begrimed hands to smooth down tangled locks strayed from the "knocker" at the back of the head.

"G'arternoon, Capting," muttered hoarse voices.

"Good afternoon, friends," was Captain's cheery response, as we pass on towards the furthermost house in the alley.

Round the corner came running a small weeping child-a creature of two, a premature little old woman, with frightened eyes, looking up at the strangers from beneath a mop of uncombed hair. Her dress was dirty, tattered, and scanty. Her little feet—the right one bleeding stood bare upon the cobbled yard; not a matter calling for much pity that warm September day, but suggestive of the reflection, would the winter still find Maggie without boots or stockings?

What new disaster did the presence of strangers denote? The question was plainly expressed in the child's third glance, until it alighted upon the Captain. Then a look of love illuminated the baby face, and made it young again. The little creature turned quickly, and ran before us, awakening the echoes of the dingy court with the glad tiding, "Cap'en a-comin', mammy! Cap'en a-comin', mammy! Cap'en a-comin',

She admired the feathers in our hats, and made tentative overtures towards spotted vells and brilliant neck-ribbons, perhaps, under the impression they were food to eat.

In that dull, dirty, dreary cabin, she was the one spot of brightness. the one thing that was really clean. There was not much in the way of furniture, and what there was appeared to be in thefinal stages of dilapidation. A broken bedstead, covered scantily over with a few rags, took up one side. In a corner lay an old sack stuffed with shavings—apparently the sleeping accommodation of some small members of the family. At present it was occupied by a lean littlen, who played drearily with the tall of a still more emaclated cat. There were two chairs: one possessing four legs but no back; the other rejoleing in a back but minus a leg. Other seating accommodation was provided by upturned boxes. A box also formed the dresser, on which was arranged a series of broken pots, together with some sad remnants of family linen. Upon a rickety tuble, stood two empty saucers, two leaden spoons, and a handleless nunc. In the mug was a little water. The saucers were emply. Indeed, with the exception of the rims, where a little soaked bread had coagulated, both they and the spoons were quite clean. Little hungry mouths had seen to that.

Mrs. - Is a widow. She had six children. Two, a daughter and a son, are able to earn a trifle; the united wages amount to 9s. cd. a week. Out of this total, 5s. 6d. goes to pay the rent of the rooms. The family have to exist upon the balance. They are respectable folk, in spite of their miserable poverty, and notwithstanding some lack of cleanliness.

But when hungry mouths are clamouring for food, and there is only a dependable weekly sum of four shillings with which to furnish bread,

a mother must needs hesitate to buy soap, blacklead, brushes, and other necessary cleaning materials. There is something to be said in extenuation. Driven in the first place to neglect, the woman grows disheartened. Then, by degrees, she gets accustomed to dirt and muddle. In the end she no longer cares. She lets things shae; there is, she thinks, nothing to be done. This is the psychological moment when The Salvation Army, having discovered the case, steps in and endeavours, often with success, to build up the woman's self-respect once more; to teach her to take pride in her home.

The acquaintance between Mrs. - and the Captain was comparatively recent. The latter was passing through the alley four months earlier, when a neighbour came out of the furthermost renement. "There's a pore widder, Capting, upstairs in that 'ouse,' she said, 'as 'are been confined, an' 'aven't no one 'cept the kids ter look ter 'er an' the biby." The Captain had gone up at once. While putting the place in order, and making the mother more comfortable, she learnt that since the birth of the child, two days since, not even so much as a cun of tea had bassed

#### Practical Comfort.

"Of course," the Captain told us later, "we looked after her until she was about again. You see," she added, "in a case like that, we assist in kind. But it is an exception from the general rule. We are not allowed to give money or presents, although we may give our services

Mrs. — was not a humbug. She did not cant, nor seek to make any appeal to our purses. That she and her children were at that moment absolutely starving, we should never have known, had it not been for the two-year-old Maggie, who, too young to be sophistleated or to accept with philosophy the burden of hunger, suddenly began to ery piteously.

"Maggie's so hungry! Maggie wants a piece!" The sobs, temporarily interrupted by our visit, broke out afresb.

"She's 'ad a sop this mornin'," put in Mrs. — hastily, scarlet with shame. "If she'll 'ave patience till my Florrie comes 'ome to-night, maybe the gal'll 'ave been paid, an' us can 'ave something then." It was again a case for practical comfort on the part of The Army.

As we made our way downstairs, Maggie's voice was once more raised in lamentation. The door opened above, and a small, reproachful figure bounded after us. "Cap'en, you 'vent tissed ne!" We, the strangers, had not omitted the ceremony. But we were only visitors to be tolerated; the Captain was the person whom she loved, and has leanet to

"We are going now to see B---, his wife and six children," announce ed the Captain, as we threaded our way through a maze of dirty streets. "I made their acquaintance in the following manner. Captain hesitated—"well, poor soul, she was under the influence of drink—came running out to meet us. 'Captain, my twins are dyin'! I've shut the door in your face many times, I know; but don't 'old it up agen me now. Come and look at my children, for I've no one else to help me."

We waited to put the question until the Captain had "And then?" We watted to put the question unit the captain and disposed of a slatternly woman, who advanced from a group of gossiping neighbours with an apologetic, "Excooze me, Capting." The gallery was occupied by the students galery was occupied by the students from the French Methodist Institute, and Frofessor Ulliard, who is Frincipal of Section College, was the chairman Professor Bieler, of McGill College, was also present, with Mrs. Bieler, and gave a bright, inspiring address: in French. The Reverends Bruneau, Delporte, DeGruchy, Dautany, and Therrier, were visitors, representing French-Methodist, Baptist, and Presbyterian Churches, and each of them spoke warmly of Addutant Cabrit's work and influence, and expressed hopes for her safe return.

There were quite a number of Officerd prest. Brigader Hargave, (who introduced the chairman), and Mrs. Hargave, Major Taylor, Mrs. Major Moore, and many others heroticing to the oity.

We had brass, string, and plano music. The Band played the French National Anthem. Mrs. Villiard and two of the French students gave a dialogue, which was very amusing; a concertina selection by a wee gir was one of the features of the programme, and two recitations by French boys were very well delivered indeed.

Finally, Adjutant Cabrit was announced. She thanked all heartly, for their sympathy and practical help to her in her work in Montreal, and requested that we stand by and help the little French Captain (Captain Hofflein), who has been so kindly sent to us from Switzerland. She has charge of the French Corps until Adjutant Cabrit's return.

A great deal was crowded into two hours, and it was very evident that the Adjutant's years of self-ascrifting toil were appreciated by a largo number of warm-hearted friends.

On Wednesday, February 23rd, the Soldiers of the French Corps gathered in the spacious rooms of Mrs. Adjutant Thompson's house, for a Council and Tea with Adjutant Jake part in the French meetings were invited also. Again we had with us Dr. Vilfrom the French Methodist Institute, and Professor Villiard, who is Principal

Dr. Villiard addressed us in English, and related some of his family's early experience with The Salvation Army in France, when, at that time, their loyalty to it cost them come sacrifice. But it was the Officers whom he mer at that time, that had impressed him so much. We have not space to chronicle all the things he accomplished but we must mention a few. Being sent to a mining district in the North of England, he found that the place was full of backfilders, many of them being ex Bandsmen. There was a general feeling of discouragement in the Corps, and the few Soldiers who remained faithful, were not very goalous. The new Officer determined to conquer these difficulties, and go, praying for much wisdom and special guidance from God, he called together his Soldiers, and poured torsities to the soldiers, and poured to revival took hold of them all, and they began to pray and weep for their backsidden compades.

They dig more; they visited them in their homes, and pleaded with them to return to God, with the rewalt that the Band soon increased from nine to twenty-even, and there was a might break amongst the ranks of the unconverted. Most of the local Officers in that Corps today were won to God during that period of revivel.

This is another step towards the linking up of Imperial trade carried in British vessels on Imperial trade routes.

#### The Voice of Conscience.

The Voice of Conscience.

What a torture is a guilty conscience! Hrunted for three years by the fact that he had forged a cheque, and fearing that a birthmark on his face would be the means of his identification, a young man working on a farm near Dee Moines, Iowa, U.S.A. has broken under the stroin, and is now a rawing maniac. Ho is the son of a prosporous farmer, and while he was engaged in the stock husliness with birs father, he bought a load of cattle, pall for them with a cheque for \$1790, to within he was engaged in the stock husliness with birs manner sold, them, and disappeared.

#### The Menace of Canada.

In the race for worldly wealth, there is always the danger that people may turn from religion. This truth has been uttered in all ages by men of God. "The love of money is the root of all evil," says Paul "which, while some coveted after, they have erred from the faith, and pierced themselves through with many sorrows."

That this danger menaces Canada, is the message of many preachers to day. Dr. Grahan, or Victoria University, said, recently, that he considered the splendour of the wealth of Canada to be, one of her greatest menaces. To guard against the here of this wealth the modern business man must take God into his account as an influence for power and stability. He deoply deplored the statement of a buchess man that "there is no friendship in the business world, and a goodly man cannot succeed." "As surely as these ethics are false," he said "there will come a time when man will stand in the darkest night, That this danger menuces Canada.

#### Care of Insane.

A great international congress, dealing with the care of the insane, will be held in Berlin, during the first week of next October, under the auspices of the German Government.

The principal feature of the congress will be an exhibition, comprising a complete display of the methods for the treatment of the insane. The exhibition will be divided into sections corresponding with the past three decades, in order that the post three decades, in order that the progress made, both in Germany and abroad, may be graphically revealed.

Honouring a Brave Man.

In recognition of his heroism, on the occasion of the Spanish River railway disaster, the King has conferred the Albert Medal of the first class on Thomas Reynolds, a conductor.

Bleeding and wounded husself, wet to the skin, with his clothing frozen to him, he saved sixteen lives from death in the ley waters of the river.

The news that their fownsman had been accorded Royal honours, aroused the people of North Ray to a pitch of enthusiasm, especially, as Mr. Reynolds is the first Canadian to receive the Albert medal. The demonstration began with a torchlight procession, leaded, by the band. Conductor Reynolds sitting in a cutter, drawin by a number of leading citizens, proceeding to the Opera House, which was speedily filled to the doors with a cheering throng.

North Bay is proud to number Thomas Reynolds among its leading citizens, and civic honours and recognition will be given him, as a tribute by his follow citizens, who, in common with all Canadians, delight to honour deeds of brave men.

#### Cost of Panama Canal.

Cost of Panama Canal.

Speaking recently on Governmental Economy, President Taft said, concerning the Panama Canai:

"The estimated cost of the engineering and construction of the canal was \$159,000,000. Its actual cost or engineering and construction, will be \$237,000,000. an increase of about \$157,200,000. This increase is to be explained, first by the very great appreciation in the cost of labour and material between the time when the estimate was made in 1900, and the time when the work was done between 1904 and 1909. Secondly by the fact that the canal has been endigned substantially beyond the original dimensions estimated for.

It is said that this waterway will double the effective power of the American navy.

#### The Control of the Air.

The problem arising out of the introduction of wheless telegraphy is that of the control of the air, and it seems probable that the different Governments will have to pass laws to prevent unauthorised persons tres' passing on air space. which he helonged. He was just an ordinary young man, earning his daily bread by the sweat of his brow, as thousands of his comrades were doby, and there was notbing much about him to give anyone the impression that he had been singled out from others to be a shepherd of the sheep in the special sense that Officership implies.

Loud came the call, bowever, "Leave all and follow Me." and in the silent watches of the night, when his soul communed more closely with his God, he felt the most positive assurance that it was God's way for tim. That is how all should teel before they volunteer for service as Officers. For Officership in The Salvation Army is a sacred calling. It is not something to be engaged in or left at will, as if it were just a position; it is a so team obligation to apend one's life in extending the Kingdom of God ou earth. A call to such a work, therefore, is not to be trifled with. A man may become a dector, a lawyer, a mechanic, or a tradesman, because he likes to or because it is a renumerative employment, but a man becomes an Army Officer because he feels he ought to—it is the lifework to which God calls him, and to disobey means spiritual shipwreck. Such were the feelings, anyhow, of the young man to whom we have referred, when he deelded to apily for the work. For convenience sake, we will call him Jack Smith—though that is not his right name.

Well, to make a long story short, he was accepted, and, in due time entered the Training College in Toronto. Now, as he kept a diary during his term in that wonderful institution, and has given us permission to have a few heeps at it, we will let him tell the story of his evolution as an Officer in his own words. It gives us a very realistic glimpse of Urfens and Cadet, and shows what benefits can be reaped from a course of training such as The Army gives, by one here. What struggles I have had to turn a deaf ear to, but I have the glimps of Urfens and write it up in a connected form.

time over the newspaper.

HE number of young people who appear to have no real alm in life astounds me.

They slouch along or saunter about as it it does not matter how they live, what they do, or how they act. They move as if to-morrow would do as well as to-day, as if time was a plaything, earth a playground, and life itself a big pleasure

That is a true picture of a young fellow who lives in an American city. He was one of those who did not care a bit. All he asked for was opportunity to fill the cup of pleasure to the hrim and drink to his heart's content.

His nucle was a minister. One evening the young man carelessly en-tered his uncle's study. Annoyed by this somewhat rude interruption, the minister looked rather sternly at the young man and said, "I am trying to prepare a sermon, and I am doing it from the text, 'For this cause came I into the world!' Then, looking Then, looking his nephew straight in the eyes, he cked, "I wonder why you were born?

"For This Cause Came I!"

and mean that the holy yet.

And keeping tryst is not giving God moment or two of hurried prayer, rapid scanning of sous text or passage, and going off with a complact the time that a religious duty has seen done. Many more of us would be in the dectors' lands than now the fire we construct the control of "Really, uncle, I don't know, and I don't much care," the young man replied. And, lighting a cigarette, out into the street he went.

Nearing the city he was startled to hear an alarm of fire. Following in the wake of an excited throng, he soon faced a terrible scene. A theatre was ablaze. Men, women and children were known to be in the burning building. Brave men were trying to save them, kindly women were asking, "Oh, what, oh, what can we do?"

The fire brigade was already in at tendance. Their business was a difficult and dangerous one, and, although they were doing as much as human skill and strength would permit, a great deal still remained to

The young man took in the situation at a glance. Off went his coat, went the elgarette, and, without being asked or Instructed, into the burning hullding he rushed. Now in and now out again he passed, all while fighting and resisting the smoke and the flames, but he never ventured in vain, for every time he saved some one, until, scorched with the fire and fahiting from the excessive Heat, he carried out the seventeenth. As he fell he was tenderly picked up and borne lovingly away.

In a half-conscious and almost dead condition he arrived at the hospital. As the doctors were busy binding up his wounds and attending to his scorched and smartlug body, he was heard to whisper: "inform my uncle; ring up unclo on the 'phone and tell him I—I must see him. request was granted. The uncle hurried to the room, and as the lad gazed up into his face he whispered, 'I understand it all now, uncle. For this cause came I into the world, to save these seventeen.

#### Can You See Yourself?

Brave fellow, was he not? Such deess as his ought to be written upon the pages of fame and imitated whenoccasion demands.

There are plenty of people in the

world precisely like that young fellow, who only discover in a moment of intense excitement for what cause they came into the world. But we not only meet people outside the Kingdom of God and outside the houndary-line of Salvation Army life who are living aimless lives, we find them within its ranks as well. They attend our Citadels, belong to our Bands, wear our uniforms, are Soldiers in our Corps, march in our ranks and follow the Blood-and-Fire Fiag. But as for any definite purpose in life, they have none. They have set no high standard before them, they have no "excelsior" view, and if you were to face then with the stern, outspoken question as to why they came into the world, why God converted their souls, they would have to answer, "I do not know," And I am sorry to confess Aud I am sorry 10 confess that some would go further still and truthfully acknowledge that not care."

Now what about you who have just read the above story? Can you see yourself described in this incident? Have you found out God's purpose concerning you? Are you quite satisfied you have found your destiny? Do you press towards the mark of the prize of the high calling of God in Christ Jesus? Have you answered the hidden, silent voice which has so often spoken in the private chamber of your soul?

You seldom, if ever, read your Bible, attend a meeting, kneel before God, look at the Bleeding Lamb without that Voice being heard. Have you answered, and what reply have You know very well that God has marked you for Officership, that He has chosen you to turn many to righteousness, and that He is anxious that you should shine as the stars for ever and ever.

You know God wants to receive a place for you in the House of many Mansions, and give you a "Well dono" when the worlds are assembled at the Great White Throne. Are you carrying out God's plan of life for you? you acting in harmony with His great ideal? Do you gladly run in the way of HIs commandments? His will your delight? If not, beware! Mind what you are doing, and remember that, for all these things, for light refused, the voice unheeded, duties neglected, God will bring you into judgment.

But bless His dear name, it is not ver too late. He has not given you up, you are still wanted at the front. As this is so, and the door that leads to a conquering, soul-saving career is open to you, why not pass through the open gateway and end this horrible controversy for ever?

There are many good people who are not quite sure about this sacred They cannot quite make up calling. their minds. They are not certain about it being God's way for them. They think about it, read about it, and-I was going to say-dream about it. And yet they appear uncertalu aud remain în doubt.

#### What the Voice Says.

To these the call seems such a blab one, the position such a divine one, the responsibility of standing between the living and the dead, and of being an ambassador for Christ, a

watchman for God, so great! strikes them with holy fear, and they shrink from taking the step. To such I would say: Go and inquire, God has an answer already for you. Go to your Bible, put your ears to its sacred pages and listen and listen again. And, unless, I mistake not, you will hear Jesus saying, "For this cause you were born, for this cause you were converted; to follow Me. to go into all the world and preach the fospol to every creature, to be a fisher of men." You will hear Him whisper in your soul, "Will ye also go back from following Me?"

Go and inquire with your eyes and you will see written across the fields, which are white unto harvest, "The labourers are few. Why stand ye here idle? Receive se the grace of God in vain?"

Look at the tears that flow, the wounds that bleed, the hearts that break, and the many millions miss their way and are eternally lost!

Look through the portals of pearl and glance through the gates of despair, and you will see written in unmistakable language, "In the nuorning sow thy seed, and in the evening withhold not thy hand. He that goeth forth weeping, bearing precious seed, shall doubtless come again rejoicing, bringing his sheaves with him."

#### Your Duty: Do It!

Then, again, I would say: Go to your room, get alone with God, shut the door, fall on your knees, sit in silence at His feet, or kneel in solemn awe before His cross, and ask God the Father, God the Son, and God the Holy Ghost what you ought to do! And you will see the answer written in letters of Love by the Father, in letters of Blood by the Son, and in letters of Fire by the Holy Ghost. "Present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service." and "Whosoever will come arter die, let nim deny himself aud take up his cross and follow Me. and "Whosoever will save his life shall lose it, but whosoever shall lose his life for My sake and the Gospel's the same shall save it."

God's words are so plain that there is no misunderstanding them. Therefore do not wait another hour.

Hands, hands, willing hands; hearts, hearts, courageons hearts; lives, lives, holy lives; souls, souls, tender souls; men, men, brave men; women, women, warrior women are wanted, and are wanted at once. Do not consult your feelings or your friends, or your past, or your present, your comrades or your circum-stances, your fortune or your future. You know what God wants you to do. DO IT. AND DO IT IMMEDIATELY.

#### Word to Should-Be Candidates.

Our current issue is largely devoted to a plea for suitable persons to consecrate themselves to God for Officership in The Salvation Army-There is no doubt that the Young People of this generation are in many ways 'exalted to heaven by privileges," and by no means, the least of these privileges is the opportuoity of becoming an Officer in The Salvation Army.

On page four is given a sketch of typical Corps Commanders, in the persons of Captain and Mrs. Osborn The work that S. A. Officers do, and the facilities and means placed the disposal of Officers for the accomplishment of this work, is very well shown in that sketch, so we should like our readers, who years, health and grace, are eligible for Army work, to carefully peruse that article, and see what an op portunity of usefulness for God is open to them in the ranks of The Salvation Army, when, by training in the College, and experience gained in smaller Corns, they will have reached the efficiency and power necessary to successfully command such a Corps.

.It is possible that some who will doubt as to read tals, may be in whether they possess the neccessary requirements for Officership. The duty of such is to apply for the Work and leave the results with God and those whose duty it is to make enquiries into the standing and fitness of Candidates. If it is God's plan for you to be a leader in The Army God will provide the needed strength and grace. Your duty is to apply, and you should apply at once. There is no time like the present. It God calls you to the Work don't delay.

last week-end and conducted a series of inspiring and nowerful meetings. After a very profitable time with the commanding officers and the Corps locals on Saturday night, the two Lieut-Colonels departed for Berlin to conduct the week-end meetings there. the Chief Secretary and the Financial Secretary remaining at Guelph. Previous to this separation, however, the forces were augmented by the arrival of Lieut.-Colonel Sharp, the Provincial Commander, and Major and Mrs. Green, the Divisional officers. The latter accompanied the Lieut.-Cotonels to Berlio, while the P. C. remained at Guelph. There was certainly no time wasted, for during Saturday evening and Sunday there were no fewer than eleven engagements. Two of these were with the members of the Census Board and the Local officers and Dandsmen respectively. Very profitable times were experienced Vital matters concerning the welfare of the Corps were discussed and ably handled by the Chief Secretary, and It is confidently expected that a general forward movement will result.

The other engagements were made up as follows: A soldiers' meeting, kneedrill, young people's meeting. two open-airs, three Indoor meetings and a special visit to the home of a comrade in company with the Band.

The Hall was crowded with an enpectant audience and a tyoical salvation engagement was conducted. We felt ourselves verily in the presence of God, being confronted with cternal issues. The truth was declared, the way made plain, and an invitation given. The appeal was not in vain, for three precious souls responded, making ninetcen in all for the week-eod.

The Chief Secretary was supported Lieux -Crievel Sharp and Brigadier Potter during the week-end engagement, and all felt that the visit was highly successful and that in its train will be results of no mean order. God grant it!-Wanderer.

#### A Revival in Full Progress.

Montreal H. had a wonderful outpouring of God's Spirit on Sunday night. # DAWSON.

Concerning a recent special Thursday night meeting at Dawson, Y.T., a paper says:

"Cold weather (fifty below zero just recently) did not keep the big crowd away from the special Thurs. day evening service at the Salvation Army last night. Every seat was taken and all enjoyed a pleasant eveniug. The programme was a little of everything, and each number a good one. Mr. Suttles and Miss Ans ley gave selections with mandolin and guitar. Then there were read-ings by Mrs. Ensign Johnstone, Mr. and Kilway and Mr. Fubs; also a recitation by Miss Neille Sait.

"Duets and solos also were given by Mrs. Johnstone and Miss Wright.

"The Band of Love children meet this afternoon. From now on two afternoons each week will be given because of the large number attending. Miss Wright is in charge of this work.

A brother who has been under conviction for some time, has now come out on the Lord's side and gives a clear testimony.

Encouraging reports reach us of the progress of the V P. Work in various places. The Star Attendance Chart has taken on splendidly and some good results are anticipated Officers who have put it into operation.

The Territorial Y. P. Secretary was much impressed by the Sunday School Work at Ottawa, Kingston, and Peterborough. Sergeant-Major Braund is to be congratulated upon having his work so well organised Twenty six Companies were in operation, and yet there was no noise, or confusion. Discipline and method will make a Sunday School a dozen times more effective in its influence and usefulness. It may cost a little to secure this, where lackadaisical, free and easy methods have been in vogue, but it's worth the price-in either Junior or Senior Work.

Have you the Star Chart working yet? It doesn't cost much. A fee cents and a little energy might awaken interest and enterprise in your Y. P. Work. If interest is not as keen as it ought to be, try something new, something to awaken interest and competition. Then the returns will, doubtless, be the biggest of anything you have done.

The Advanced Training for Offi-cers maintains its interest and the new students are the best workers we have had for a long time. An hour a day for self-improvement cannot fail to make an Officer much more effective in his work, as time goes by.

The first visit of the Staff Band to Port Hope, which, by the way, is one of the prettiest towns along the shores of Lake Ontario, was an acknowledged success in every way, Despite the fact that the Corps has often been dubbed a "hard go," the Band was accorded a reception that warmth has seldom equalled. Captain Murphy and ber assistant, Lieut. Revival Fire Burning.

Bridgetown, N. 8.-We have recently seen sumbers of sinners saved. Our attendances have been increased, and within pure our open-air attendances have increased from seven to twenty-three.

Some of the converts have expressed their desire of becoming blood and fire Soldiers, while others are thinking seriously of Candidate ship.

We had a visit from Cautain Miller, (G. B. M. man). His illustrated service was very interesting and instructive, and was enjoyed by the large number who were present.

On February the 8th, a number of comrades with the Officers undertook a sleighing party to Annapolis. They left at 4 p.m., and arrived back at 3.50 a.m., after conducting a meeting.

On February 16th, Captain Stein burg and the committee of Annanolis us a return visit, which we enloved very much.

Bridgetown may have been in the background for some time past, but since the revival fire has reached the town, we have jumped to the front rank, and the comrades with the Officers, are praying for the old time power to be poured out upon

#### ALL THINGS ARE NOT WHAT THEY SEEM.

VERY book of fairy stories contains more than one tale of the power of a magic wand, Saturday Evening Post. Pumpkins

are transformed into stage coaches by its touch; common klichen utensils into crowns and diadems; rags into queenly robes; and dross into into queenly robes; and dross into gold. Yet the most riorously-imaginative fairy tale has never recounted marvels that surpass those which have been wrought by the touch of the wand wielded by the industrial chemist and engineer.

So successfully is the sedence wielded that, with the exception of the skies above us, and

smelling, viscous liquid is transmuted into the most widely-different substances imaginable. It yields systamics after dyestinds, surpassing in health, brilliancy and permanence the rolors empided to us by plante and animals. To such proportions has the industry of extracting these artificial dyes developed that rurely indeed are the natural cotors employed. Splendid reds of all shades, delicate blues, rich greens, exquisity yellows, warm browns and dead blacks are now all extracted from coal tar. The dyes thus obtained are numbered by thousands. Hardly a month passes but the discovery of a new one is chronicled in patents and chemical journals.

#### PANAMA.

During a month's tour in the Panama Division, Lieut,-Colonel Maidment visited all the Corps on the Isthmus, conducting Officers' Councils and public moetings. At Empire, the Colonel enrolled fourteen Soldlers. He also paid his first visit to Bocas-del-Toro, a little township between Colon and Costa Rica, where we opened fire about two years ago. There is already a fine body of Soldiers and recruits, sostly West In-Panama plantation.

At Port Limon and other places it was impossible to hold meetings because of heavy rains, which continued for a fortnight, causing immense floods and completely dislocating traffic.

#### DENMARK.

Colonel Povisen recently conducted a rousing campaign at Valby and twelve souls came to the mercy seat.

Encouraging news reaches us from many parts of the country. The Di-visional Officer for North Judand (Major Fich) writes that recently many souls have been saved at Aarhus, Hjorring, Frederikshavn, Aal-borg, and Thisted. At the last-named place, where there is only a small Corps, eight recruits have been enrolled since the New Year. The Major held Officers' Councils and public gatherings at Viborg and Norre-Sundby; the Halls were packed and three captures were made.

At a meeting in the Copenhagen Temple, conducted by Colonel Povisen, there was a good congregation and eleven souls for Salvation.

The Brigadier has had crowded halls and some good captures during twelve days' campaign in South Jutland and Fyn.

Then raising his voice, he added:

Referring to this interesting event, Branch Secretary Leaguer W. Ken-nard says: "The Bible was purchased by our shipmates without our knowledge, and, in fact, we were not even allowed to take part in the cere-mony; we were the 'guests of the You should have heard evening! the men cheer The General's name'"

It may be necessary to point out that during the time the "Encounter" has been at Sydney, the Band has frequently conducted services on

#### UNITED STATES.

A splendid work is in progress at the Chicago Slum Settlemeut, under Captain Garvin and her several assistants. The only pity is that there are not a larger number of these "angels" (as they are so often duhbed), who are ready to "spend and be spent" for the salvation of these necdy classes of our community.

Colonel and Mrs. Dean have been weicomed to America. The Colonel will take over the position of Training Principal at the New York College.

The Eastern Scandinavian Congress was a very fine affair. resence of Commissioner Mrs. Booth Hellherg, of course, added a wonderful amount of interest, while the Chief Secretary and other leading Army officials, including the newly-arrived Colonel Dean, also helped things along to the high point of enthusiastic success which was attained.

The Annual Southern Congress of the South Atlantic and Gulf Divisions was recently held at Atlanta. Over 80 officers were present. Their spirit was decidedly buoyant and very hopeful, which augurs well for the success of The Army in the South.

The visit of Commissioner Cadman to Boston was a mighty success. Great crowds througed the People's Palace all day, many coming for miles to hear the grand old warrior. Fifty souls surrendered.

## A VISITOR AT UXERIDGE.

Capt. Price visited Exbridge on Saturday and Sunday, Feb. 18th and 20th. The Soldiers were glad to have the Captain with them, also Lieut. Marsland, who was formerly stationed with the Captain.

The meetings were profitable and interesting to all. The locals were re-commissioned.

good reliable for of Soldiers, and a good work is in progress.

The salvation of soulis and the making of Salvation Soldiers is just as much the aim in life of this depoted couple, as ever before, and they are pushing on the War with all their wonted energy.

It is no small satisfaction to them to reflect on the number of persons they have influenced to similarly devote their lives to The Salvation Wai. At the great Congress in London, some years ago, the Cantain was watching a group of Cadets, when a bright-faced lassle ran up and cordiably greated him. He did not know her till she reminded him that she had been saved when a Junfor, during his stay at a certain Corps. No less than six Cadets came to him that day with the same tale to tell.

Another person whom he greatly influenced, was a young drugglist. He is now assisting Dr. Turner in The Salvation Army Hospital in India. India hundreds of people, both in Canada and England, are in The Sulvation Army to-day, owing to the consecration of Captain Osborn.

The successful work of Captain and Mrs. Osborn, may be said to be due hard work, visitation, and practical living. What they are on the platform, they have made themselves, by constant practice and a study of the best way of reaching people's hearts and consciences. They believe in working solely along Salvation Army Hones, and that, too, might be considered a great factor in their success.

in their success.

The same opportunities for successful service lie before many young men and women who read these lines. This is Candidates' Week. Will you resolve to devote your life to the service of God and The Army? If so, your reward will be according to your works.

A drunken man staggered into our open air ring to-night, and asked us to pray for him. We were soon on our knees in the street, calling on God to save him. He got saved. Glory! We were filled with Joy, and all the world seemed brighter. In the meeting at the Hail, a man testing and got converted, through reading and got converted, through reading an article in the War Cry.
